2012 THIRD QUARTERLY RESULT ANNOUNCEMENT

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors of Ruifeng Petroleum Chemical Holdings Limited collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to Ruifeng Petroleum Chemical Holdings Limited. The directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief:— (1) the information contained in this announcement is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this announcement misleading; and (3) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

RESULTS

The board of directors of Ruifeng Petroleum Chemical Holdings Limited (the “Company”) presents the unaudited consolidated results of the Company and its subsidiaries (the “Group”) for the three months and nine months ended 30 September 2012 together with the comparative figures for the corresponding periods in last financial year.

NOTES

1. Principal accounting policies and basis of preparation

1.1 *Basis of preparation*

The unaudited consolidated financial information for the nine months ended 30 September 2012 has been prepared in accordance with accounting principles generally accepted in Hong Kong and compiled with accounting standards issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). The consolidated financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2011, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the HKICPA.

1.2 *Accounting policies*

Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2011, as described in those annual financial statements.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Group and the Company. The adoption of these new and revised HKFRSs did not result in substantial changes to the Group’s accounting policies and amounts reported for the current year and prior years.

The Group has not applied the new HKFRSs that have been issued but are not yet effective. The application of these new HKFRSs will not have material impact on the financial statements of the Group.

2. Revenue and other income

Revenue comprises the fair value of the consideration received or receivable for the sale of goods, processed fuel oil and services rendered in the ordinary course of the Group's activities. Revenue is shown net of allowance for return and trade discounts, and applicable goods and services taxes and after eliminating sales within the Group.

An analysis of the Group's revenue and other income is as follows:

3. Income tax expenses

No provision for Hong Kong profits tax has been made as the Group had no estimated assessable profits arising in Hong Kong during the period (2011: Nil).

Taxes on profits assessable elsewhere have been calculated at the rates of tax prevailing in the jurisdictions in which the Group operates, based on existing legislation interpretation and practices in respect thereto.

4. Dividends

No dividend has been paid or declared by the Company or any of the companies comprising the Group during the nine months ended 30 September 2012 (2011: Nil).

5. (Loss)/earnings per share

Basic (loss)/earnings per share is calculated by dividing the loss attributable to equity holders of the Company for the nine months ended 30 September 2012 of approximately HK\$165,514,000 (30 September 2011: profit of approximately HK\$63,703,000) by the weighted average number 4,787,762,294 (30 September 2011:3,551,612,000) ordinary shares in issue during the period.

Diluted (loss)/earnings per share is calculated by adjusting the weighted average number of shares outstanding to assume conversion of all dilutive potential shares. The diluted potential share of the Company is the share options as at 30 September 2012. Because the amount of diluted loss per share is increased when taking share options into account, the share options had an anti-dilutive effect on the basic loss per share for the period and were ignored in the calculation of diluted loss per share.

MANAGEMENT DISCUSSION AND ANALYSIS

Operations review

For the period ended 30 September 2012, the Group is engaged in (i) fuel oil processing and trading business and (ii) the development and distribution of computer software and related products (the “IT business”).

Fuel oil processing and trading business

Carried through from the fourth quarter of 2011 with this period under review, the demand of fuel oil in mainland China decreased as the result of the slowdown in economy growth and decrease in its manufacturing rate in mainland China. In addition, the increase in international crude oil and fuel oil price and the domestic regulation and tight control over the selling price of refined oil products in mainland China has seriously affected the margin of the fuel oil products in mainland China since the third quarter of 2011 (collectively the “Unfavorable Macro Factors”). During the first half of 2012, the fuel oil processing and trading business was continually adversely affected by the Unfavorable Macro Factors with even larger magnitude. The international crude oil and fuel oil price continued to climb to new high since the 2008 financial crisis in the first quarter of 2012, and started to slow down in the second quarter of 2012, on the other hand, the selling prices of refined oil products were still tightly controlled by the China government. Moreover, the worries over the fiscal and sovereign debt crisis in euro-zone countries have further dampened the economy growth and the manufacturing rate as well as the demand of fuel oil in mainland China.

Similar to other companies in the fuel oil processing and trading industry in mainland China, for the period under review, the Group has faced a difficult business environment. The Group recorded gross loss margin of 16.0% in the fuel oil processing and trading business in the nine months ended 30 September 2012, which has deteriorated further from the gross loss margin of 0.8% in the second half of 2011. As compared to the same period of 2011, the gross margin has been eroded completely from a gross profit margin of 6.1% for the nine months period ended 30 September 2011 to gross loss margin of 16.0% for the nine months period ended 30 September 2012. In response to the severely Unfavorable Macro Factors and non-profit market conditions of fuel oil processing and trading business, in which the cost of sales was higher than the selling price of the fuel oil products in the first half of 2012, the Group did not go for turnover at the expenses of the profit margin to control the extent of the gross loss of the Group in the fuel oil processing and trading business until the market conditions improved and the gross margins of the fuel oil products returned to a profitable level. Unfortunately, there was no improvement in the market conditions and the margins of the fuel oil products throughout the nine months ended 30 September 2012, as a result, for the period under review, the Group recorded a significant decrease in revenue from approximately HK\$4,277.1 million to approximately HK\$22.4 million.

On the other hand, as further disclosed under the heading “Litigation” in page 13 of this announcement, the Company, Foshan Ruifeng Petroleum and Chemical Fuel Company Limited (the Company’s major fuel oil processing and trading operating subsidiaries) and certain of its subsidiaries, have been listed as defendants in a total of 31 court cases with total amount claimed against the Group of RMB880.2 million (the “Court Cases”). Five of the 31 Court Cases, in which judgments have been entered against a wholly-owned subsidiary of the Company for about RMB42.9 million. Please refer to the “Litigation” section for more details. The accumulated effect of the Court Cases may start to have an adverse effect on the Group’s market standing and competitiveness in the fuel oil processing and trading business in mainland China and create further challenges to the Group.

Beside waiting for the market conditions turnaround, in order to actively face the challenges and difficulties of the Group, on 13 April 2012, Inno Smart Group Limited sold 1,100,000,000 shares of the Company (representing approximately 21.56% of the issued share capital of the Company as at 30 June 2012) to Black Sea Horizon Investment Holdings Limited (“Black Sea”), which is a 60%-owned subsidiary of Beijing Black Sea Horizon Investment Holdings Limited (“Beijing Black Sea”). Beijing Black Sea and its subsidiaries are mainly engaged in local and international investments, including the imports and exports and trading of oil, oil storages etc.

With the support of Black Sea and Beijing Black Sea (collectively the “New Substantial Shareholders”), which also have business network and expertise in oil industry, the Group will strive to diversify the sourcing of raw materials with the aim to procuring price competitive and stable raw materials to improve the profit margin of the oil products. In addition, the New Substantial Shareholders will continue to assist the Company to maintain constructive dialogues with the plaintiffs of the Court Cases and actively monitor the progress of the Court Cases.

Although the market conditions of the fuel oil processing and trading business in the fourth quarter of 2012 may remain as difficult as the period under review, given the continuing economy growth in mainland China, the Group remains cautiously optimistic towards the fuel oil processing and trading business in mainland China for the mid-to-long run despite the uncertainties in the recent complicated economic environment.

Acquisition of Boke

With aim to extend the fuel oil processing and trading business in the mainland China, the Group has entered into a new share purchase Agreement (the “New Agreement”) on 22 July 2011, to acquire the 70% of equity interest in Zhoushan Boke Power Co. Ltd. (“Boke”) and to terminate the old Share Purchase Agreement dated 11 April 2011 to acquire; (i) 100% of equity interest of Boke and; (ii) an option to acquire 100% of equity interest of Zhejiang Yuye Petroleum Co. Ltd. Pursuant to the New Agreement, the considerations for acquiring 70% of equity interest in Boke are approximately RMB33.0 million. The Directors foresee that the Company would be able to increase the market share of oil trading in the mainland China by extending the sales network to the eastern China, as a result of the acquisition. As additional time is required for the fulfillment of the precedent conditions, the Company has entered into a third supplemental agreement on 31 January 2012, pursuant to which the Long Stop Date of the New Share Purchase Agreement has been further extended from 31 January 2012 to 31 March 2012 (or such other date as agreed between the parties to the New Share Purchase Agreement).

As the business registration of the change in 70% equity interest of Boke is still in progress, the Group and the vendor have entered into a sixth supplemental agreement on 29 September 2012 pursuant to which the Long Stop Date of the New Share Purchase Agreement (as supplemented by the supplemental agreements dated 28 October 2011, 28 November 2011, 31 January 2012, 30 March 2012, 29 June 2012 and 29 September 2012 respectively) has been further extended from 30 September 2012 to 31 December 2012 (or such other date as agreed between the parties to the New Share Purchase Agreement).

Saved as disclosed above, all other terms and conditions of the New Share Purchase Agreement (as supplemented by the supplemental agreements dated 28 October 2011, 28 November 2011, 31 January 2012, 30 March 2012, 29 June 2012, 29 September 2012 respectively) remain unchanged and in full force and effect.

Electronic transaction platform

On 15 September 2011, the Group has entered into Memorandum of Understanding with the China E-Commerce Association Development Fund to develop and operate an electronic transaction platform for petrochemical products. The Directors believe that, upon the completion of the electronic transaction platform, it will allow the Company to enter into the electronic trading market of the petrochemical products, widen the Company’s income stream and also bring synergy to the existing business. Please refer to the Company’s announcement dated 15 September 2011 for the details.

Strategic Cooperation Agreement with EU China

On 16 October 2011, the Company has entered into the Strategic Cooperation Agreement with EU-China Fund Management Limited (the “EU China”) pursuant to which EU China is expected to invest no less than RMB4 billion into the Company within two years from the date of the Strategic Cooperation Agreement. Strategic Cooperation Agreement offers an opportunity to the Group to expand its investment scale in China, including oil refinery, storage and harbor facilities and is a recognition of the Company’s business from the market. With the Strategic Cooperation Agreement, the Company could have more capital to further develop its oil trading business, as well as introduce international investors to expand its shareholders base. Please refer to the Company’s announcement dated 19 October 2011 for the details.

IT business

The IT business has experienced a decline both in its turnover and gross profit in the reporting period. It recorded revenue of approximately of HK\$3.3 million, representing a 25.9% decrease comparing to same period of last year of approximately of HK\$4.5 million. The decrease is mainly due to the slow recovery of the global economy. The sluggish consumer demand has inevitably hampered the consumer-spending sentiment and hindered the IT business. The gross profit of IT business has been decreased by 11.0% as compared to the same period last year.

FINANCIAL REVIEW

Turnover for the period ended 30 September 2012 decreased to approximately HK\$22.4 million (30 September 2011: approximately HK\$4,277.1 million). The decrease was substantially attributed to significant decrease in sales of the oil processing and trading business.

The fuel oil processing and trading business and IT business contributed gross loss of approximately HK\$3.0 million (30 September 2011: gross profit of approximately HK\$258.6 million) and gross profit of approximately HK\$3.3 million (30 September 2011: gross profit of approximately HK\$3.7 million) to the Group respectively, for the period under review.

The total gross profit of the Group for the period ended 30 September 2012 was approximately HK\$0.3 million (30 September 2011: gross profit of approximately HK\$262.4 million). The overall gross profit margin % of the Group was 1.2% (30 September 2011: approximately 6.1%).

Distribution and administrative expenses for the period ended 30 September 2012 increased to approximately HK\$93.4 million (30 September 2011: approximately HK\$75.3 million) which was mainly due to the increase in rent and utilities during the period. The finance costs mainly represented the borrowing costs arisen from operation of oil processing business. The decrease in finance costs was in line with the decrease in turnover.

The Group recorded a loss attributable to equity holders of the Company for the period under review of approximately HK\$165.5 million (30 September 2011: profit of approximately HK\$63.7 million). The loss for the period was mainly attributable to significant decrease in sales of the oil processing and trading business.

As at 30 September 2012, the Group had cash and bank balances of approximately HK\$2.5 million (31 December 2011: approximately HK\$90.2 million) and had bank borrowings of approximately HK\$695.8 million (31 December 2011: HK\$634.0 million).

On 25 February 2011, the Company entered into private warrant placing agreements with five independent individuals to place a total of 145,000,000 warrants at the exercise price of HK\$1.2. The net proceeds received by the Company arisen from warrant subscription price were approximately HK\$261,000 which were applied to the Company's working capital. The subscription rights attaching to the warrants were expired on 24 February 2012 and no subscription rights were exercised during the period.

LITIGATION

Reference is made to the announcements of the Company on 1 March 2012, 27 March 2012, 5 April 2012, 18 April 2012, 26 April 2012, 7 May 2012, 17 May 2012, 6 June 2012, 20 June 2012, 9 July 2012, 1 August 2012, 20 August 2012 and 12 September 2012. According to these announcements, Foshan Ruifeng Petroleum and Chemical Fuel Company Limited (the Company's major operating subsidiary) together with its wholly-owned subsidiaries in mainland China and other parties, have been listed as defendants in a total of 31 court cases pending before various courts in mainland China for allegedly defaulting on debt payments. The total amount claimed in the 31 court cases is about RMB880.2 million. For most of the 31 court cases, applications have been made to the court for deferment of trial (向法院申請延期審理) and/or for disputing the court's jurisdiction (提出管轄權異議). In five of the 31 court cases, judgments have been entered against a wholly-owned subsidiary of the Company for about RMB42.9 million. For details, please refer to the table below.

The PRC legal advisors engaged by the Company have actively followed up the 31 court cases and their updates are as follows:

No.	Case number	Plaintiff	Major Reliefs Sought	Updates

During the nine-month period ended 30 September 2012, there was no purchase, sale or redemption by the Company, or any of its subsidiaries, of the Company's listed securities.

COMPETING INTEREST

None of the directors or the management shareholders and their respective associates of the Company (as defined in the GEM Listing Rules) had any business or interest which competes or may compete with the business of the Group nor any other conflicts of interest with the Group during the period under review.

COMPLIANCE WITH CODE OF CORPORATE GOVERNANCE PRACTICE

The Company applied the principles and complied with all the code provisions as set out in the Code on Corporate Governance Practices contained in Appendix 15 of the GEM Listing Rules throughout the period under review except that, following the retirement of Mr. Yeung Chi Hung, an independent non-executive director of the Company, on 7 May 2012, the Company had only two independent non-executive directors and two audit committee members, the number of which fell below the minimum number required under Rules 5.05(1) and 5.28 of the GEM Listing Rules until the Company appointed Mr. Li Wing Sum Steven to fill in the vacancy on 1 June 2012.

AUDIT COMMITTEE

The primary duties of the audit committee are to review and supervise the financial reporting process and internal controls system of the Group. The audit committee comprises three members, Dr. Chen Tzyh-Trong, Dr. Lee Chung Mong, and Mr. Li Wing Sum Steven. All of them are independent non-executive directors of the Company.

The Group's unaudited condensed consolidated financial information for the nine-months ended 30 September 2012 have been reviewed by the audit committee, which was of the opinion that the preparation of such results complied with the applicable accounting standards and requirements and that adequate disclosure has been made.

DIRECTORS OF THE COMPANY

Executive directors of the Company as at the date of this announcement are Mr. Chan Wai Lun Anthony, Mr. Yue Wai Keung and Mr. Guo Jing Sheng; the non-executive director is Mr. Chan Kwan Pak; and the independent non-executive directors are Dr. Chen Tzyh-Trong, Dr. Lee Chung Mong and Mr. Li Wing Sum Steven.

ON BEHALF OF THE BOARD

Chan Wai Lun Anthony

Chairman
